The survival of the Amazon concerns all humanity.

The Amazon is home to one-fifth of the world's freshwater and one-third of the Earth's forests. Its Indigenous peoples live sustainably from its resources, but the Amazon is under threat. "The destruction of the Amazon is not just the problem of Indigenous peoples, but of all humanity. If the Amazon disappears, it is very likely that all humanity will disappear," says Yesica Patiachi, a member of the Harakbut Indigenous community in Peru. We are all interconnected. Let's stand in solidarity with those who strive to protect our land, our waters and our lives.
